Upon the failure to complete connection where the structure in which sanitary sewer originates has not been connected to an available public sanitary sewer within the 60-day period provided in division (D)(2) above, the township shall require the connection to be made forthwith after notice by first class mail or certified mail or posting on the property to the owners, occupants and persons having control of the property on which the structure is located. The notice shall give the approximate location of the available public sanitary sewer for connection of the structure involved and shall advise those persons of the requirements and the enforcement provisions of this chapter.

If any structure in which sanitary sewage originates is not connected to an available public sanitary sewer within 30 days after the date of mailing or posting of the written notice provided in division (D)(3) above, the township, in addition to the remedies otherwise provided by this chapter, may bring an action for a mandatory injunction or order in the district, municipal or circuit court in the county in which the structure is situated to compel the owner to immediately connect to the available public sanitary sewer. The township in one or more of such actions may join any number of owners of structures to compel each owner to connect to the available public sanitary sewer.

If the owner or occupant of property with a private sewage disposal system fails to connect to an available public sanitary sewer as provided by this section, then the township may take any action necessary to do so, charging all costs of compliance to the property owner or to the occupant of the property, and the charges shall become (and shall be collectible as) a lien on the property.

In the event of filing of the notice, no further service to the premises will be provided, unless and until a cash deposit in an amount to be determined by resolution of the Township Board, but not less than the estimated bill for three months of sewer service, has been deposited with the township as security for the payment of the charges. In any other case where, in the discretion of the township, the collection of charges for water or sewer disposal service may be difficult or uncertain, the township may require a deposit. The deposits may be applied against any delinquent sewer service charges of the depositor and the application thereof shall not affect the right of the township to turn off the water or sewer service to any premises thereby satisfied.

(C) Return of security deposits. The township shall refund a deposit upon satisfactory payment by the user of all proper charges for sewer service for a period of 12 successive billing

quarters. Payment will be considered satisfactory if made prior to the issuance of any notice of discontinuation of service for nonpayment. Users who have established credit by the satisfactory payment of sewer charges at one premises shall not be required to make deposits at a subsequent premises. A user who has been refunded a deposit shall be required to remake a security deposit in the event that user's service is discontinued for nonpayment before service will be reinstated. (F) Late payment penalty. In the event the bill is not paid by the due date, a 10% penalty will be added to the net amount of the bill, and both shall become immediately due and payable. All payments by mail must be postmarked on or before the due date to prevent imposition of the 10% penalty. When the due date falls on a legal holiday, Saturday or Sunday, the net amount will be accepted on the first business day following. Failure to receive the bill shall not excuse a late payment penalty unless it can be shown from the billing record that the bill was not sent.

(G) Change of address. It shall be the responsibility of the owner and/or user to notify the township of any change in ownership or billing address.

(H) Termination of sewer service for nonpayment.

(1) If payment is not received or satisfactory arrangements have not been made within 30 days of the due date on the bill, a termination of service notice will be sent by first class mail to inform the user that failure to pay the past due amount, including any penalties, within seven days will result in termination of service.

(2) This notice will also inform the user that the user may request a hearing before the Township Board prior to any termination of service.

(3) At the hearing, the user will be given an opportunity to show why service should not be terminated. If payment is not received or satisfactory arrangements have not been made or a hearing has not been requested within seven days after the notice is mailed to the user, the sewer service will be discontinued.

(4) No sewer service that has been discontinued for nonpayment of charges shall be restored until all past due bills and penalties are paid or satisfactory arrangements for the payment are made.

(I) Water shut-off. In addition to other remedies provided, the township shall have the right to shut off and discontinue the supply of water to any premises for the non-payment of sewer rates when due. If the charges are not paid within 30 days after the due date thereof, then water services to the premises shall be discontinued. Water services so discontinued shall not be restored until a time as all charges and penalties are paid. Water shut-off shall be preceded by adequate notification and an opportunity to request a hearing as provided for in division (H) above. Notices and hearings under division (H) above and this division (I) may be combined.

*(J) Collection of rates. The charges and rates for sewer services provided herein which are made a lien on all premises served thereby, unless notice is given as provided by state statute that a tenant is responsible, are hereby recognized to constitute the lien, and whenever any such charge against any piece of property shall be delinquent for *three* months or more, they shall be certified annually on September 1 of each year to the tax-assessing officer of the township, whereupon the charge shall be entered by him or her upon the next tax roll as a charge against the premises and shall be collected and the lien thereof enforced in the same manner as general township taxes against the premises as collected, and the lien thereof enforced.

Effective Date. This ordinance has immediate effect on October 20, 2015. All ordinances or parts of ordinances in conflict with this ordinance are repealed.

*Amended * See Clerk to view resolution

(1) There are exceptional or extraordinary circumstances or conditions applying to the specific property that do not apply generally to other properties in the district affected.

(2) The variance is necessary for the preservation and enjoyment of substantial property right similar to that possessed by other properties in the district. Financial gain alone shall not be deemed sufficient to warrant the granting of a variance.

(H) Exceptional uses.

(1) The Board shall determine whether the proposed exceptional use would be hazardous, harmful or a nuisance to the surrounding neighborhood by reason of increased noise, atmospheric or other pollution, vibration, glare, fire hazard, parking, traffic, aesthetic effect, devaluation of property values or psychological effects.

(2) For that purpose, the Board may suggest to the applicant that he or she enlist experts to aid in its determinations. The Board may impose additional requirements and conditions necessary to preserve the intent of this chapter.

(I) Fees.

(1) The required fee of \$20 for a Board of Appeals hearing is part of any building permit and is in addition to other building permit fees.

(2) The fee shall be paid to the Township Clerk before any action shall be taken on the petition. The fee shall be retained regardless of the decision of the Board.

(J) Time limit.

(1) The necessary permit shall be secured and the authorized action begun within three months after the date a variance is granted. Authorized action shall be completed within 12 months after the date a variance is granted.

(2) The Board may, after a public hearing, extend those periods for good cause shown. (Ord. 72-1 passed 5-2-1972)

(2) One copy of plans and specifications shall be retained by the Building Inspector. The other copy shall be delivered to the applicant upon issuance of a building permit.

(3) The Building Inspector may, upon approval of the Planning Commission, waive portions of the foregoing requirements which are not necessary under the particular circumstances for compliance with this chapter.

(4) Any building permits shall be displayed within 24 hours of issuance by placing the same face out in a conspicuous place on the premises facing the nearest street. The permit shall be displayed until all work is completed or the term for which the permit is issued expires.

The Building Inspector shall send a copy of the permit to the Clerk.

(D) Certificate of occupancy. No land shall be used and no structure erected or altered until a certificate of occupancy is obtained from the Building Inspector. A record of all the certificates shall be kept by the Building Inspector. A copy of all the certificates shall be sent to the Township Clerk.
